

RoHS (2015/863/EU) Compliance

Directive 2015/863/EU of the European parliament and of the council of 31 March 2015, on the restriction of the use of certain hazardous substances (RoHS III) in electrical and electronic equipments was effective on 22 July 2019.

This directive prohibits the use of lead, mercury, cadmium, hexavalent chromium, Polybrominated biphenyls (PBB) or Polybrominated diphenyl ethers (PBDE), Bis (2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP), Diisobutyl phthalate (DIBP) above specified levels in new electrical and electronic equipment starting from 22 July 2019.

NeoPhotonics is fully committed to environmental protection and sustainable product development and manufacturing, and has set in place a comprehensive program for removing polluting and hazardous substances from all of its products. RoHS compliance is an integral part of our environmental policies and procedures, and NeoPhotonics has worked with each of our suppliers to ensure the RoHS compliance of our raw materials. Evidence of RoHS compliance is maintained in our document control system for all our compliant products.

NeoPhotonics' policies, procedures, and evidence for RoHS compliance is audited by external third party independent auditors as part of our ISO9001, TL9000 and 14001 certifications.

Please refer to your NeoPhotonics sales representative for detailed information on how to order the appropriate RoHS compliant product from NeoPhotonics.
